

# Digital Transformation: The Next Industrial Revolution

Kimberly Nelson  
Executive Director  
Government Solutions  
US SLG

May 2017

# Our society & technology

# Chicago Sewage System Circa 1916

LOOKING BACK FROM THE STEAM SHOVEL OVER THE BRICK-LAYING GANG, SHOWING COMPLETED INVERT IN FOREGROUND, ARCH FORMS, BRACING AND SHEETING IN PLACE, BRICK LAYERS AT WORK AND FIRST STAGE OF TRENCH-FILLING PROCESS.

# What does the Fourth Industrial Revolution Mean for You?

“The future is already here – it's just not very evenly distributed.”

William Gibson

# Improved Permitting

# Improved Inspections

# Augmented Reality Inspections

**Allows trainees and workers** learn and execute complex tasks quickly, more efficiently, and in a controlled, consequence-free environment

**Maximizes employee efficiency** and work force skill level when applied

**Enables effortless collaboration** between workers, managers and inspectors across entire workflows

**Provides authenticated,** documented, compliance-focused implementation of tasks and processes

**Supports Government/Enterprise collaboration** in regulated industries and entities

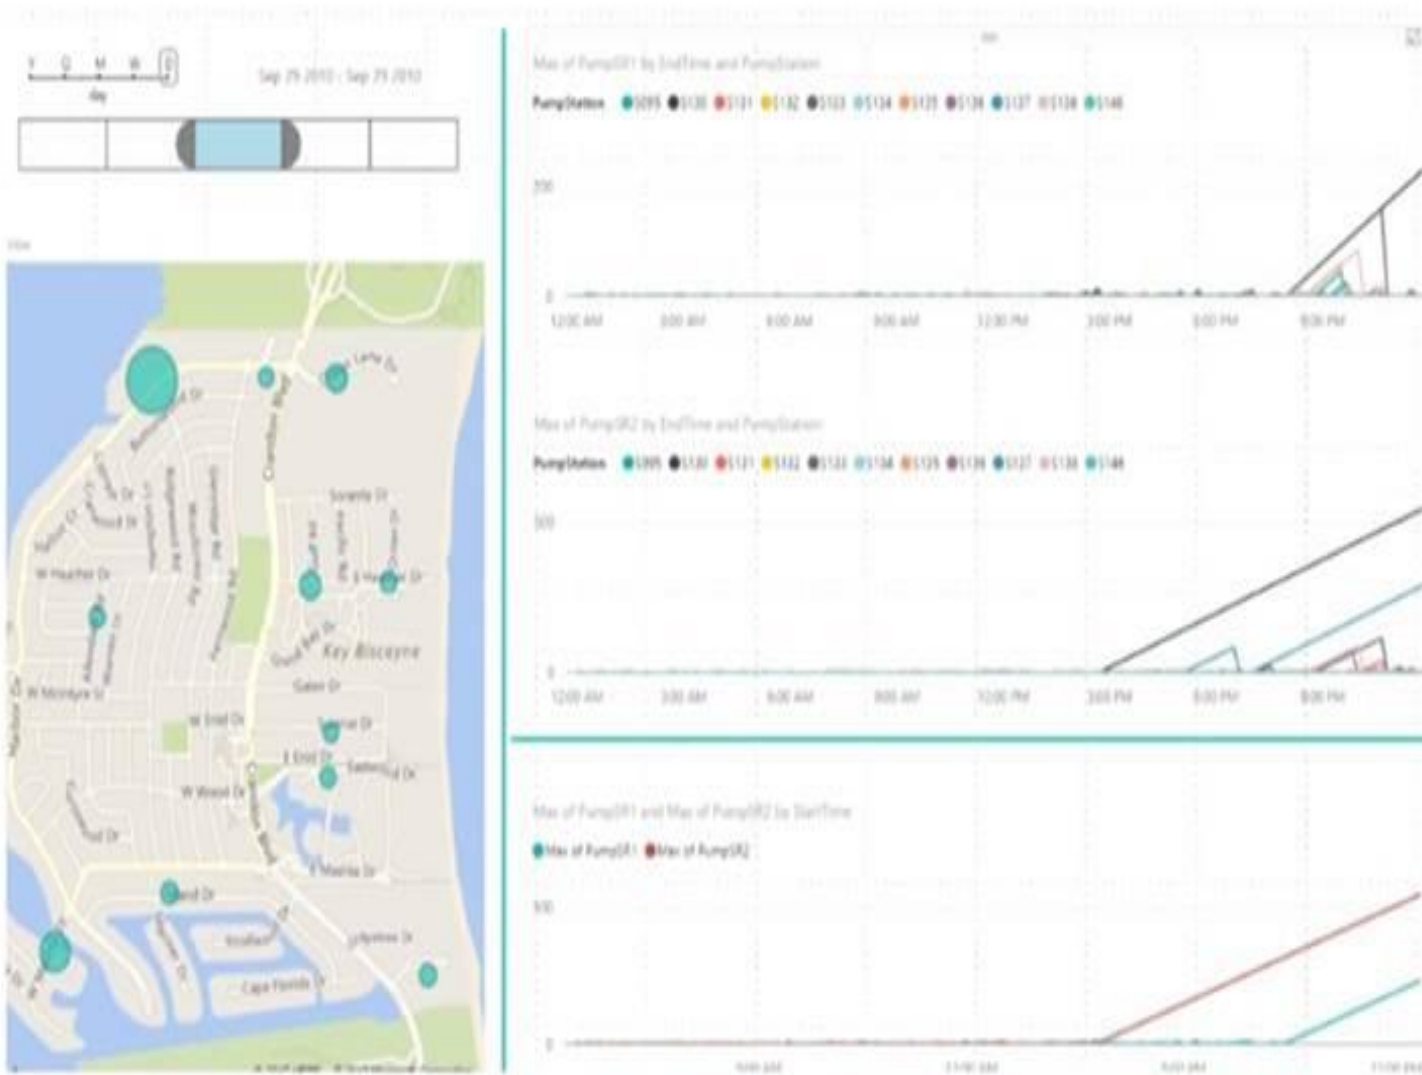

**“Augmented Reality is already improving worker performance**

Improved Compliance

# Compliance

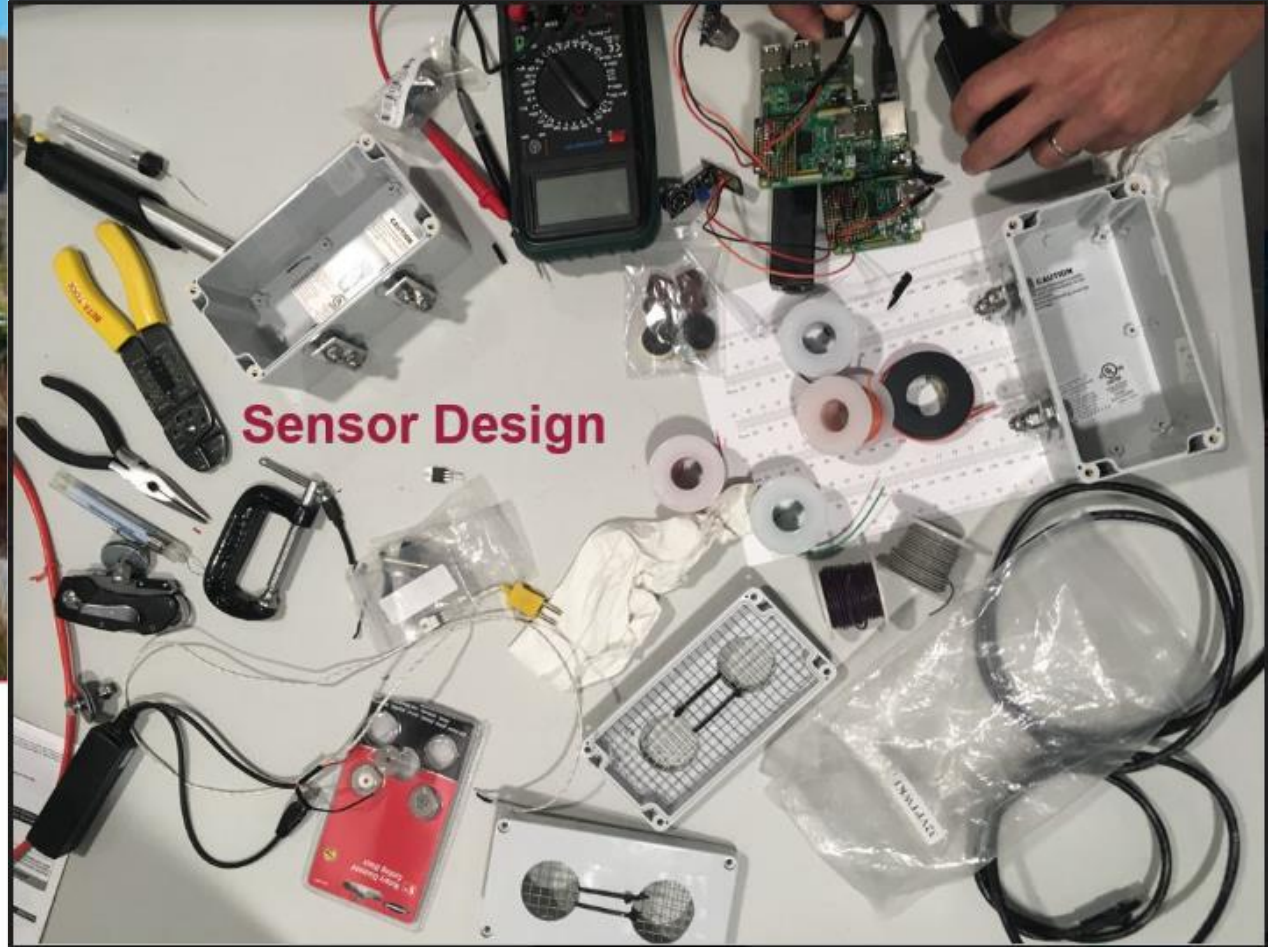

- Hundreds of Sewer overflows
- 1100 pump stations
- Little visibility or actionable info
- Using IoT now
- 15 billion rows of data
- Real time analysis ensures optimum performance and prevents failures

Improving the environment

# Lafayette Engagement and Research Network (LEaRN)

## Sensor Design

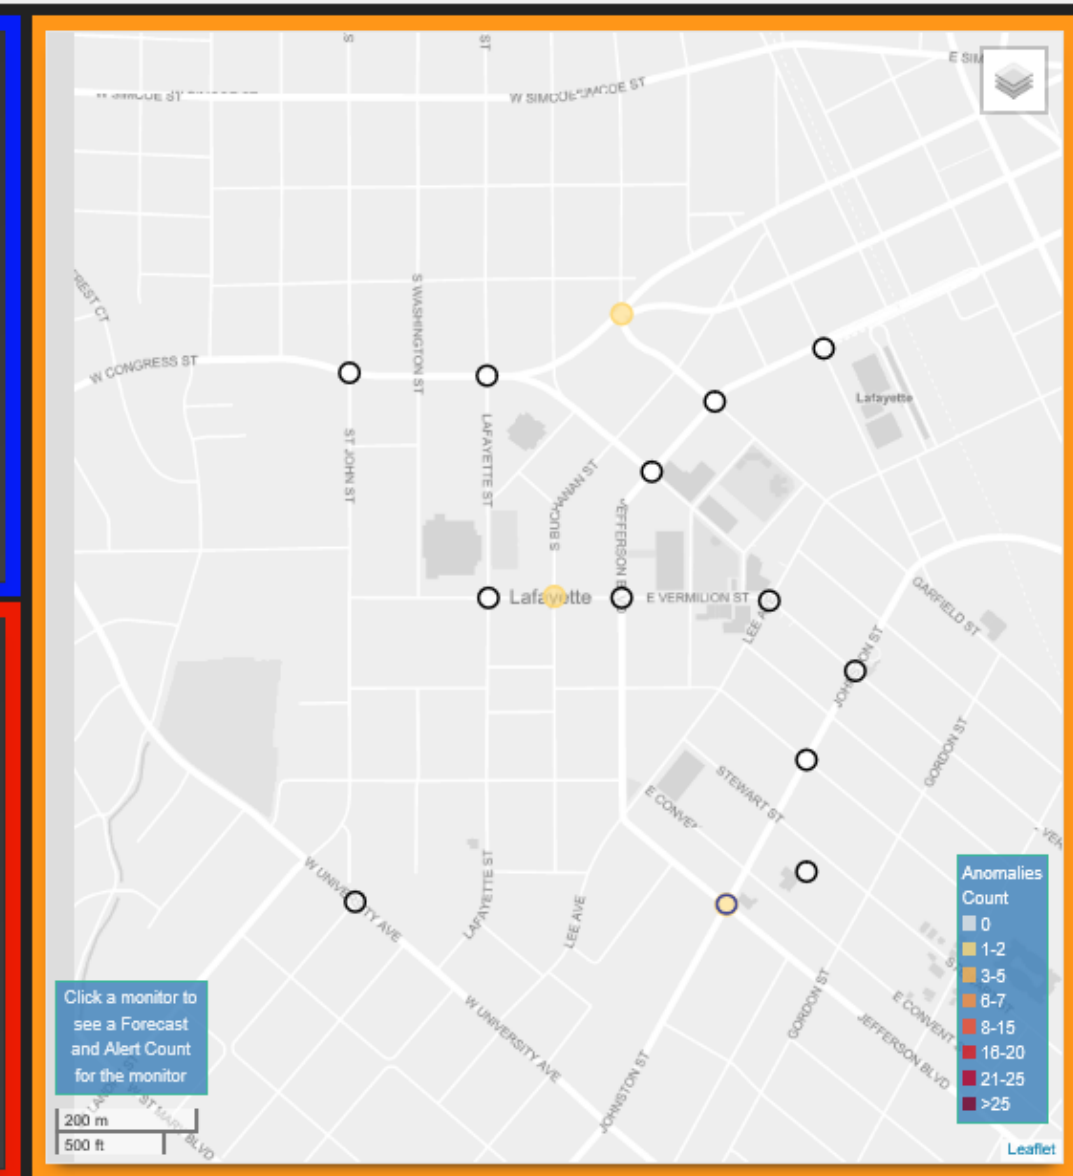

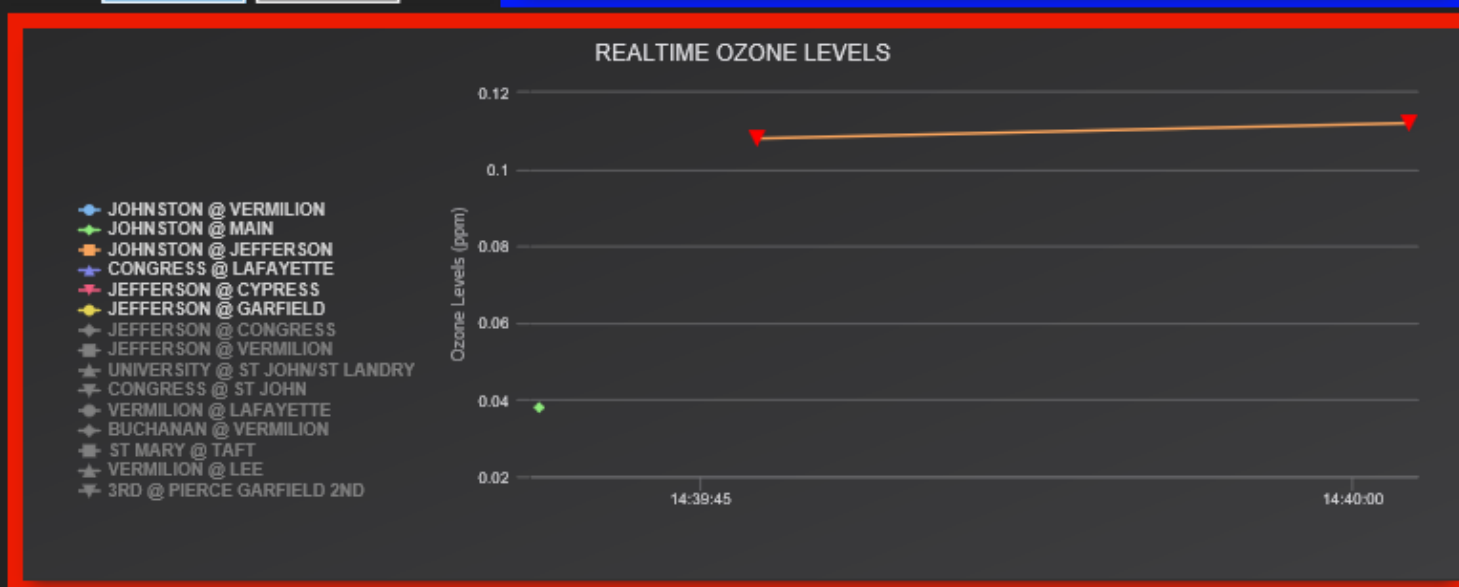

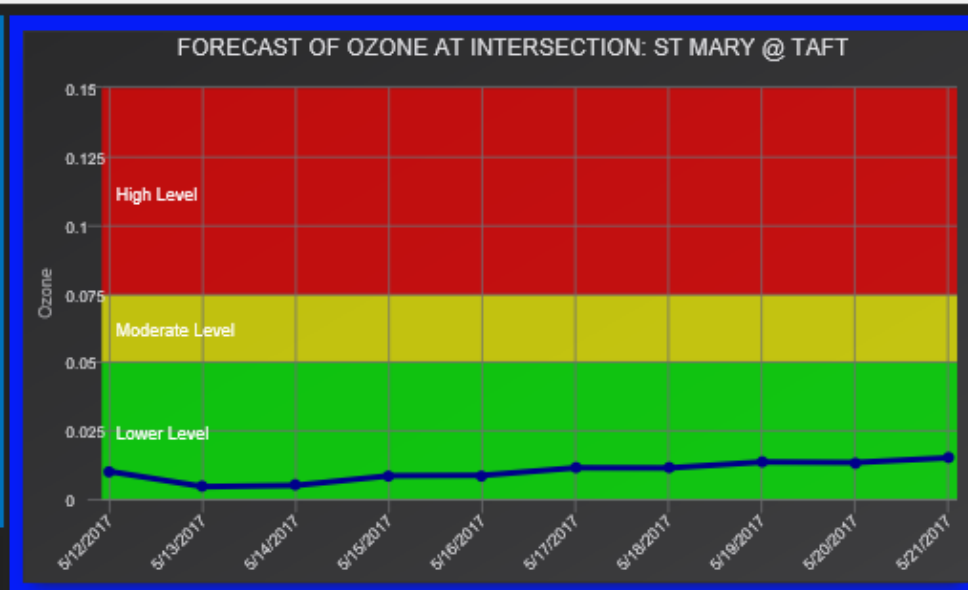

# Sens.io

Realtime Dashboard with Predictive Analytics

Overview Livestream

# Fourth industrial revolution

... all powered by  
the cloud

Make a difference in the world

Microsoft

# How can you begin your Digital Government Transformation?

## Growth Hack your Vision

Develop a shared vision with your constituents and citizens of what success will look like for you

## Organize your thinking

- [ISO 37120](#)
- [100RC Resilience Model](#)
- [Gartner Digital Maturity Model](#)
- [Data Governance & Classification Workshops](#)

## Create Governance

- Establish your own Digital Governance Board
- Communicate your learning transparently
- Trusted Data Collaboratives – Block Chain

## Think Big, Act Small

Define a discrete POC that is aligned to your most pressing 'Civic Moment'
