Rate Yourself

Keep track of the number of your correct answers and see how you rank on the EN Expertise Scale (**ENES**)

Round

1

Category A

Sign up for this to keep up
with EN happenings

Category A

ALERTS

Sign up for Network **Alerts**
on the EN Website

www.exchangenetwork.net

Category B

EN tool for exploring the
Exchange Network

Category B

EN **Browser**

Category C

Acronym for rule allowing a network partner to receive legally enforceable electronic submissions

Category C

CROMERR

CROSS

Media

Electronic

Reporting

Regulation

Category D

EN reference describing the data fields used in a data flow

Category D

DET

Data

Exchange

Template

Category E

The high-level policy making
group for the EN

Category E

ENLC

Exchange

Network

Leadership

Council

Category F

EN document describing
how a data flow works

Category F

FCD

Flow

Configuration

Document

Category G

EN data flow for exchanging
information about CO2
emissions

Category G

GGE

Greenhouse

Gas

Exchange

Category H

EN data flow for exchanging
information about facilities
for emergency response
groups

Category H

HERE

Homeland

Emergency

Response

Exchange

Category I

An XML file containing real data based on an XML schema

Category I

Instance

Document

Category J

CAMEO

?

Category J

The EN2011 EPA Co-Chair

Category J

Jonathon

Jacobson

Category K

CAMEO

?

Category K

The Exchange Network
Coordinator

Category K

Kurt

Rakouskas

Category L

Category M

The method used for
transmitting attachments
under Node 2.0

Category M

MTOM

Message

Transmission

Optimization

Mechanism

The Nerds

NTG!

Round 2

Category N

A set of centralized security services shared by all network nodes

Category N

NAAS

Network

Authentication &

Authorization

Services

Category 0

The free Node 2.0 node
developed by Windsor
Solutions

Category 0

Open Node 2

Category P

The underlying security
mechanism used by the EN

Category P

PKI

Public

Key

Infrastructure

Category Q

The EN water data flow for
transmitting water
monitoring data to
EPA/STORET

Category Q

wQx

Water

Quality

eXchange

Category R

The EN data flow for
transmitting waste-related
data

Category R

RCRA

Resource

Conservation &

Recovery

Act

Category S

A product for cleansing
yourself

Category S

SOAP

Simple

Object

Access

Protocol

Category T

The only EN data flow where data is regularly pushed from CDX to partner nodes

Category T

TRI

Toxic

Release

Inventory

Category U

The EN data flow used to share data about waste injection wells

Category U

UIC

Underground

Injection

Control

Category V

Schematron provides
advanced functionality for
this

Category V

Validation

Category W

A standards-based XML
document used to describe
EN web services

Category W

WSDL

Web

Services

Description

Language

Category X

The standard format of all
data exchanged on the EN

Category X

XML

eXtensible

Markup

Language

Category Y

The principle author of most
of the Node standards

Category Y

Yunhoa Zhang

Category Z

The number of EN-enabled data flows sent to CDX not using the EN after the 'Drive to the Finish' is completed

Category Z

Zero

**End of
Round 2**

EN Expertise Scale

0-5 EN Challenged

6-10 EN Newbie

11-15 EN Proficient

16-20 EN Expert
