

Exchange Network Services Center

2011 Exchange Network National Meeting
April 26, 2010

Roy Chaudet
US Environmental Protection Agency
Office of Environmental Information

What is the Exchange Network Web Client?

- **Simple web access** to Exchange Network services
 - EPA's first generation web interface
- **Accesses services** that enable users to quickly send, receive, and publish information using Exchange Network services (or dataflows)
- **Alternative to Node Client/Network Desktop** (which requires installation)
- Authorized user can readily access
 - *No installation needed*
 - *Program personnel can use*

EN Web Client Home Page

The screenshot shows a web browser window with the address bar displaying "Exchange Network Node v2". The page header includes the U.S. Environmental Protection Agency logo and the text "Exchange Network Web Client v2.0". A navigation menu on the left lists various options such as Home, My Activity, My Queries, News Channels, News Composer, Data Exchanges, Recovery, EIS, FRS, WCIT, OWIR-ATT_v2, NHDEvent_v2, Operations, Download, Submit, Query, Solicit, Execute, Searches, File Search, Service Search, History Search, RSS Search, and Full Text Search. The main content area displays a "Welcome to the Node 2.0 Web Interface" message and an RSS/ATOM News Channel section. The RSS channel is set to "RecoveryChannel" and is currently displaying the "Recovery" feed. The feed contains several entries, each with a date, time, and a link to an "EPA Weekly Financial and Activity Report" for various dates in 2011.

Submitting to EIS

The screenshot shows a web browser window with the URL `https://nodewebrss.epa.gov/user/EIS.aspx`. The browser's address bar and menu bar are visible. The page content includes the U.S. Environmental Protection Agency logo and the text "U.S. Environmental Protection Agency". Below this is a blue header for "Exchange Network Web Client v2.0". A sub-header reads "EIS_v1_0 Data Exchange" with a "(Show Help...)" link. The main content area is a light yellow box containing two input fields: "Select Document:" with a "Browse..." button, and "Emails to Notify:". A "Submit" button is located below these fields. A left-hand navigation menu lists various options: Home, My Activity, My Queries, News Channels, News Composer, Data Exchanges (Recovery, EIS, FRS, WCIT, OWIR-ATT_v2, NHDEvent_v2), Operations (Download, Submit, Query, Solicit, Execute), and Searches (File Search, Service Search, History Search, RSS Search, Full Text Search).

What is the Exchange Network Service Center?

- **“No Frills” web access** to Exchange Network services
- **Simple, easier-to-use and more intuitive** site designed for the less technical program user and the more advanced technical users
- **More personalized experience** that allows you to quickly access the services and data that you use most often
